

Solo Strings 1 Installation

- Create a new folder, and name it, for example, "Solo_Strings_1".**
- If you have not already downloaded your files, then download them into this new folder.**
- If you have already downloaded your files, then make sure that all files were downloaded into the same folder.**

Unzip all files:

Windows - To unzip all the contents of the zipped folder, press and hold (or right-click) the file, select Extract All, and then follow the instructions according to your OS.

Mac - Double-click the .zip file and extraction will take place.

Once the extraction is complete, your Solo Strings 1 Library folder will be located inside the same folder where your Solo Strings 1 .zip files are:

Your extracted library should look like the
